

Charity vs. ^{Love} ~~Humanity~~
Liberation →

When we practice charity what we are doing is treating humanity like ~~or~~ cattle enclosed in a fence.

- ① Little grass inside - green and abundant grass outside.
- ② Ranch owner invites the neighbors
- ③ Little calves are getting weak he decides to let them have a pint of milk to keep them going.
- ④ The cattle is hurting among themselves with horns so he puts corks and the end of horns.
- ⑤ He decides to build a barn to protect the old cows and bulls from the hardships of weather.
- ⑥ But the cattle keeps getting

weaker, going downhill and
rendering less and less benefits
to the owner & getting restless.

⑦ The neighbors makes the owner
the obvious question.

⑧ Why you don't turn down the
fences and let the cattle free
and have the abundance of grass
and water.

⑨ If I let the cattle free I will
be unable to milk the cow.

Liberation:
